

MEDICLEAN MC 610
Air freshener – green tea

Date of issue 11.02.2013

updated: 12.04.2013

Version ANG: 1.0

*Material Safety Data Sheet according to Regulation WE 1907/2006 from 18.12.2006 – REACH and 453/2010 from 20.05.2010r.***SECTION 1: Identification of the mixture and of the company/undertaking****1.1 Product identifier:** MEDICLEAN MC 610 Air freshener – green tea**1.2 Relevant identified uses of the mixture and uses advised against:**Recommended use: To refresh the air in bathrooms, toilets, offices, and other public spaces
Uses advised against: not specified**1.3 Details of the supplier of the safety data sheet:****Manufacturer:** Medi-Sept Sp. z o.o.
Konopnica 159C, 21-030 Motycz
tel. (+81) 503 23 77
www.medisep.plE-mail address of the person responsible for safety data sheet: grzegorz.gromadzki@medi-sept.com.plE-mail address of the person responsible for translation: aleksandra.majewska@medi-sept.com.pl**1.4 Emergency telephone number:** +48 81 535 22 22 in hours: 8.00 – 16.00
International emergency number: 112**SECTION 2: Hazards identification****2.1 Classification of the substance/mixture**

The mixture is not classified as dangerous

Risk to human health

The proper use does not pose a threat to human health.

Risk to environment

The mixture is not classified as dangerous for the environment, contains ingredients harmful to the environment.

Physical/chemical

No.

2.2 Label elements:**Hazard symbols and warning signs:**

No.

Hazard statements:

No.

Phrases for conditions for safe use:

No.

Other information: safety data sheet available on request of user .

Contains fragrances. It can cause allergic reaction.

According to regulation. 648/2004.Ingredient data sheet available at: www.medisep.pl**2.3 Other hazards:**

No additional hazards

No information about substances specified in PBT or vPvB according to 1907/2006/EG annex XIII.

Appropriate studies have not been conducted.

SECTION 3: Composition/information on ingredients**3.1 Substance:** Not applicable**3.2 Mixture:**

Hazardous ingredients:

MEDICLEAN MC 610
Air freshener – green tea

Date of issue 11.02.2013

updated: 12.04.2013

Version ANG: 1.0

Material Safety Data Sheet according to Regulation WE 1907/2006 from 18.12.2006 – REACH and 453/2010 from 20.05.2010r.

Product identifier	Content %	Classification acc. to 67/548/EWG	Klasyfikacja CLP	
			Hazard class and category codes	Hazard statements
Ethanol CAS: 64-17-5 WE: 200-578-6 Index number: 603-002-00-5 <u>REACH number</u> : 01-2119488633-28-XXXX	<5	 F: R11	Flam. Liq. 2	H225
Fragrance mixture CAS: - WE: - Nr indeksowy: - <u>REACH number</u> : the substance is subject to the transitional period	<5%	R52/53	Aquatic Chronic 3	H412

The full texts of the mentioned R-phrases and hazard statements (H) are listed in chapter 16.

It also contains propylene glycol number CAS: 57-55-6) <6%

SECTION 4: First Aid Measures

4.1 Description of first aid measures

Skin contact:

Wash affected areas with soap and water and rinse well. Immediately take off all contaminated clothing. If skin irritation persists, contact doctor.

Eye contact:

Rinse immediately with plenty of water, also under eyelids, for at least 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing with running water. If symptoms persists, call a doctor.

Inhalation:

In case of dizziness and nausea move to fresh air. If symptoms persists, obtain medical advice.

Ingestion:

Do not induce vomiting, rinse mouth. Immediately contact a doctor.

4.2 Most important symptoms and effects, both acute and delayed:

The respiratory system. Inhalation of concentrated vapors may cause irritation of the mucous membranes of the nose, throat and downstream sections of the respiratory system, cough, shortness of breath, trouble breathing.

The digestive tract: May cause irritation of the mucous membranes of the gastrointestinal tract, abdominal pain, stomach cramps, nausea, vomiting, diarrhea, malaise, headache and dizziness – symptoms of food poisoning.

Eye contact: May cause skin irritation in case of direct exposure.

Contact with skin: Long, frequent, direct contact can cause redness, sensitive skin irritations.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media:

Suitable extinguishing media: alcohol-resistant foam or dry chemicals (A,B,C), carbon dioxide (fire extinguisher).

Use fire extinguishing methods suitable to surrounding conditions.

Not suitable: Heavy jet of water.

5.2 Special hazards arising from substance or mixture:

During a fire, under the action of high temperature release of toxic degradation products containing min. oxides of carbon.

5.3 Advice for firefighters:

MEDICLEAN MC 610
Air freshener – green tea

Date of issue 11.02.2013

updated: 12.04.2013

Version ANG: 1.0

Material Safety Data Sheet according to Regulation WE 1907/2006 from 18.12.2006 – REACH and 453/2010 from 20.05.2010r.

Cool containers with spray water. If possible remove from the danger zone. As in any fire, wear self-contained breathing apparatus and full protective gear. Prevent fire-fighting water from entering surface water, ground water and sanitation.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: the failure to notify the competent authorities. Remove from the danger zone people not involved in the liquidation of failure.

For emergency personnel: Ensure adequate ventilation. Use personal protective equipment. Do not breath vapors.

6.2 Environmental precautions:

Do not allow to enter sewerage or water bodies. Inform local authorities in case of inability to provide protection.

6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents).

Contaminated material placed in properly labeled containers according to applicable provisions. .

6.4 Reference to other sections

Product waste – see section 13

Personal protection – see section 8

SECTION 7: Handling and storage

7.1 Precautions for safe handling:

Use in well-ventilated area. Avoid prolonged or repeated contact with skin. Avoid spilling or splashing. Do not breath vapours. Keep away from sources of ignition, high temperature, hot surfaces and open fire. Work in accordance with safety instructions and hygiene: Do not eat, drink and smoke in work areas, wash hands after use, remove contaminated clothing and protective equipment before entering eating areas. For all specific recommendations given carry out risk assessment at the workplace in order to help determine controls appropriate to local circumstances.

7.2 Conditions for safe storage, including any incompatibilities.

Store in a cool, dry, well-ventilated properly labeled and tightly closed original container.

Keep away from heat and direct sunlight, hot surfaces and open fire.

7.3 Specific end uses:

To refresh the air in bathrooms, toilets, offices, and other public spaces

SECTION 8: Exposure controls/personal protection

8.1 Control parameters:

Exposure standards for occupational hazards in accordance with the Regulation of the Minister of Labour and Social Policy on the maximum permissible concentrations and intensities of harmful factors in the work environment dated 29 November 2002 (Journal of Laws No. 217, item 1833 as later amended)

Exposure limits:

Substance	NDS	NDSCh	NDSP
	mg/m3		
Ethanol	1900	-	-

8.2 Exposure controls:

Appropriate technical controls: recommended well-ventilated areas.

Indyvidual protective means such as gloves, glasses.

MEDICLEAN MC 610
Air freshener – green tea

Date of issue 11.02.2013

updated: 12.04.2013

Version ANG: 1.0

Material Safety Data Sheet according to Regulation WE 1907/2006 from 18.12.2006 – REACH and 453/2010 from 20.05.2010r.

Eye and face protection:

Wear framed glasses or face mask (acc. EN 166)

Skin protection:

Hand protection:

Wear protective nitrile, natural rubber or PCV gloves according with EN-PN 374:2005.

Gloves material:

Choice of suitable gloves do not depend only on material but brand and quality. Material resistance can be defined after testing. Exact destruction time must be declared by manufacturer.

Other:

Wear appropriate protective workwear acc. EN 344 – wash regularly.

Air passages protection:

Do not breath vaporous

Thermal hazards:

Not applicable.

Control of environmental exposure:

Do not allow to spread in the environment and enter drains or watercourses.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	Liquid
Colour	Light Green
Odour	Green tea
Odour threshold	Not specified
pH	9,5
Melting point/range	Not specified
Boiling point/range	>70°C
Flash point	Not specified
Ignition	Not specified
Evaporation rate	Not specified
Flammability (solid,gas)	Not specified
Lower explosive limit	Not specified
Higher explosive limit	Not specified
Vapour pressure at 20 °C	Not specified
Realtive vapor density	Not specified

Date of issue 11.02.2013

updated: 12.04.2013

Version ANG: 1.0

Material Safety Data Sheet according to Regulation WE 1907/2006 from 18.12.2006 – REACH and 453/2010 from 20.05.2010r.

Density at 20 °C	0,99 - 1,00 g/cm ³
Solubility in solvents	Not specified
Coefficient n-octanol/water	Not specified
Auto-ignition temperature	Not specified
Decomposition temperature	Not specified
Viscosity	Not specified
Kinematic viscosity at 22°C	Not specified
Explosive properties	Not specified
Oxidizing properties	Not specified

9.2 Other information:

No additional test results.

SECTION 10: Stability and reactivity

10.1 Reactivity:

Unknown.

10.2 Chemical stability :

The product is stable under normal conditions.

10.3 Possibility of hazardous reactons:

No

10.4 Conditions to avoid:

Avoid high temperature, direct sunlight, hot surfaces and open fire.

10.5 Incompatible materials :

No

10.6 Hazardous decomposition products:

At high temperatures toxic products of decomposition release – oxides of carbon.

SEKCJA 11: Toxicological information

11.1 Information on toxicological effects:

a) acute toxicity: not recognized

Ethanol

LC50(rat, orally):> 7060mg/kg

LD50 (rabbit, orally): 6300mg/kg

LC50(rat, inhalation): 20000ppm/10h

b) irritant effect: not recognized

c) corrosion: not recognized

d) allergic: not recognized

e) repeated dose toxicity: no data

f) carcinogenicity: does not show

g) mutagenicity: not shown

h) reproductive toxicity: does not show

Information on likely routes of exposure:

The respiratory system. Harmful effects unknown.

The digestive tract: May cause irritation of the mucous membranes of the gastrointestinal tract, abdominal pain, stomach cramps, nausea, vomiting, diarrhea, malaise, headache and dizziness – symptoms of food poisoning.

Eye contact: May cause skin irritation in case of direct exposure.

Contact with skin: Long, frequent, direct contact can cause redness, sensitive skin irritations.

MEDICLEAN MC 610

Date of issue 11.02.2013

updated: 12.04.2013

Version ANG: 1.0

Material Safety Data Sheet according to Regulation WE 1907/2006 from 18.12.2006 – REACH and 453/2010 from 20.05.2010r.

Delayed, immediate and chronic effects from short-and long-term exposure:

No data.

Interaction effect:

No data.

SECTION 12: Ecological information

Detailed studies of the environmental effects were not carried out. The mixture is not classified as dangerous for the environment, contains ingredients harmful to the environment.

Do not allow product to reach ground water, drains and watercourses.

12.1 Toxicity:

Ethanol

Toxicity to fish EC50:12900-15300 mg/l/96h (rainbow trout)

Toxicity to bacteria EC50: 34900 mg/l/5-30min

12.2 Persistence and degradability:

Ethanol – readily biodegradable

Propylene glycol – readily biodegradable under oxygen conditions

12.3 Bioaccumulation ability:

Ethanol – no

Propylene glycol – low bioaccumulation ability, coefficient logPow – 1,07, bio concentration BCF 0,09.

12.4 Mobility in soil:

Ethanol – very soluble in water

Propylene glycol – if released into the environment the product passes into the water and the soil with little potential to evaporation

12.5 Test result of PBT and vPvB assessment:

No data.

12.6 Other adverse effects:

No data.

SECTION 13: Disposal considerations

13.1 Waste treatment methods:

Remainders of product and contaminated empty containers must be disposed in accordance with local and state regulations. The rest place in original containers. Utilize in accordance with valid regulations. Empty containers should be disposed of in accordance with regulations or provide for appropriate landfill.

SECTION 14: Transport information

14.1 UN number : Not applicable. Product is not classified as dangerous in transport.

14.2. UN proper shipping name: Not applicable. Product is not classified as dangerous in transport.

14.3 Transport hazard class: Not applicable. Product is not classified as dangerous in transport.

14.4 Packing group: Not applicable. Product is not classified as dangerous in transport.

14.5 Environmental hazards: Not applicable. Product is not classified as dangerous in transport.

14.6 Special precautions for user: Not applicable. Product is not classified as dangerous in transport.

14.7 Transport in bulk according to Annex II MARPOL 73/78 and the IBC Code: Not applicable. Product is not classified as dangerous in transport.

SECTION 15: Regulatory information

15.1 Laws concerning the safety, health and environment specific for the substance or mixture.

Detail information available upon request.

15.2 Chemical safety assessment:

No chemical safety assessment. .

Material Safety Data Sheet according to Regulation WE 1907/2006 from 18.12.2006 – REACH and 453/2010 from 20.05.2010r.

SECTION 16: Other information

Text of R and H-Phrases:

R11 – Flammable

H225 – Very toxic to aquatic life with long lasting effects.

Abbreviation, acronyms and symbols description:

F – produkt wysoce łatwopalny

Flam. Liq. 2 – flammable liquid cat. 2

NDS – The highest concentration

NDSP – The highest ceiling

NDSCh – The highest temporary

Training:

Not requested.
